UNBALANCED SEAL - CS85S

Face Materials

- carbon, ceramic, tungsten carbide, Silicon carbide, Iecrollly
- <https://www.cosmosseals.com/images/product-images/>

Metal Parts

- SS 316, SS 304

Secondary Seals

- Viton, EPDM, silicon, aflas, GFT, karlez, FEP, TTV

Applications

- crystallizing slurry, suspended solids slurry, saturated chemical slurry, general chemical slurry

Operating Limits

- Shaft Diameter d_1 - 12? . 100mm, Pressure P : 12 bar (max), temperature t : -20? . +180 degree C, velocity v : 20m/sec
