UNBALANCED SEAL - CS85SV

Face Materials

- carbon, ceramic, tungsten carbide, Silicon carbide, Iecroly
- <https://www.cosmosseals.com/images/product-images/>

Metal Parts

- SS 316, SS 304

Secondary Seals

- PTFE, GFT

Applications

- crystallizing slurry, suspended solids slurry, saturated chemical slurry, general chemical slurry

Operating Limits

- Shaft Diameter d_1 - 125 - 100mm, Pressure P : 12 bar (max), temperature t : -20 $^{\circ}$ C - +180 degree C, velocity v : 20m/sec
